

I am concerned about what the FCC wants to do with the LPFM and FM translators. We do not have any local Christian stations that I feel meet my needs as Klove does. I listen to K-Love radio which is on a FM translator and if you change the regulations I will no longer be able to listen to this station. I have been listening to Klove for many years and this is the only station that I listen to. It fits my needs and the needs of my family. So please consider what you are doing to the national and regional services. I know that K-love will not be the only one effected by this. You will be destroy many radio stations accross the U.S. PLEASE DO NOT ENFORCE THE LPFM EXPANSION. Thank You
